One cloud on our otherwise clear horizon is the governor’s decision to radically reduce support for the state’s child-care subsidy program. This directly impacts our mission, and we will continue to work with our representatives in Charleston to reverse this decision, so injurious to the families we serve.

We are blessed with a caring, talented staff, able, dedicated administrators, and a committed hard-working board. We are blessed in the children and families we serve—from the littlest “Sprouts” to our schoolagers. Above all, we are grateful for your confidence and support, and all you have done to help make SDC such a vibrant, thriving institution.

## Shepherdstown Day Care Annual Report 2012

SDC is a partner agency of  
United Way of the Eastern Panhandle

United Way  
of the Eastern Panhandle

Combined Federal Campaign #92626

## A Letter from the President of the Board

Once again I can report a very successful year at SDC! We have much to celebrate: first and foremost our outstanding program. Visitors to the center are astonished by what they see and hear in our classrooms, from babies enjoying some “tummy time”, to little ones singing songs in Chinese, Spanish or German, three-year-olds carefully writing their names, the pre-K’s working with math manipulatives—things that look like fun but are really full-on learning activities. Our children receive first-rate instruction and loving care, and all reports indicate that children going on to elementary school from our program are superbly well prepared.

We have much to be grateful for, including the support received from the community through our annual fund appeal, and successful fundraising events like our annual Wine Auction and Run By the River. We are grateful for operational support from the United Way of the Eastern Panhandle, from the Jefferson County Commission, and the substantial gifts received from Ronald McDonald House Charities and AHA! for our inventive arts program that includes pottery, dance and movement classes, and musical performances. We were delighted to receive funding from the state Community Participation Project Grant program that will enable us to finish our parking lot, and are grateful to Senators Herb Snyder and John Unger for facilitating this award.

## Thank you for your support! Shepherdstown Day Care gratefully acknowledges the contributions of individuals, businesses, foundations and organizations in FY 2011-2012.
